

Deeper Relationships Odyssey

Designed to deepen the healing and therefore the transformation of relationships. Long term relationships will always have some level of difficulty.

Deeper Relationships Odyssey is for an individual in a relationship with an 'other' with some level of difficulty or question or patterns calling for skill-building.

It is designed whether one or both individuals will be active participants.

The individuals asking to be in the Deeper Relationships Odyssey will be the active participants in weekly class. The 'other', no matter the nature of the relationship, will be involved via their Higher Self and Spiritual team.

This is a 3-month program in which the participant will be learning, remembering, applying, committed and acting from honesty and self-accountability. This will require one 90 minutes weekly class with assignments that will require time during the week. At least a total of 90 minutes. The 'other' will be a 'receiver' of work and anchored changes.

The participant will not be involved in the work and anchoring done in behalf of the 'other'.

The intention is to remember and apply the conventional healing processes and then to learn, apply, explore ever deeper information that will unlock unhealthy cords, transform old personal and ancestral trauma patterns, etc. in order for there to be sovereign space for each. And to encourage autonomous living from the inner wisdom and guidance for a healthy, stable, and meaningful life.

Reality Statements:

- Only Divine Good of Divine Family Agendas can exist and manifest here.
- We work within a protected, safe, guided field in all we do.
- We have a field for pathologically damaged bodies, broken brains, dangerous man/woman to show up in relationships and be transformed to their Divine Truth.

There will be a limited number for this Odyssey and so let me know your interests as soon as possible.

This class is offered at a sliding scale from \$220 to \$650 for the 3 month project.

The investment can be invoiced with payments at any level of choice.
